OFFICE OF WATER
FY 2009 STATE GRANT MEASURES APPENDIX**

				REGIONAL OFFICE										
G/O/S	ACS Code	Measure Text	Nat. Target	01	02	03	04	05	06	07	08	09	10	HQ
Goal 2: Clean and Safe Water														
Objective 2.1: Protect Human Health														
Sub-objective 2.1.1: Water safe to drink														
Grant Program: Public Water System Supervision SDWA Section 1443(a)														
2.1.1	2.1.1	Percent of the population served by community water systems that receive drinking water that meets all applicable health-based drinking water standards through approaches including effective treatment and source water protection.	90%											
2.1.1	SP-1	Percent of community water systems that meet all applicable health-based standards through approaches that include effective treatment and source water protection.	90%											
2.1.1	SP-4a	Percent of community water systems where risk to public health is minimized through source water protection.	37%											
2.1.1	SP-4b	Percent of the population served by community water systems where risk to public health is minimized through source water protection.	52%											
2.1.1	SDW-01a	Percent of community water systems (CWSs) that have undergone a sanitary survey within the past three years (five years for outstanding performers) as required under the Interim Enhanced and Long-Term I Surface Water Treatment Rules.	95%											
Grant Program: Underground Injection Control														
2.1.1	2.1.1	Percent of the population served by community water systems that receive drinking water that meets all applicable health-based drinking water standards through approaches including effective treatment and source water protection.	90%											
2.1.1	SDW-06	Percent of identified Class V Motor Vehicle Waste Disposal wells that are closed or permitted. (cumulative)	75%											

2.1.1	SDW-07a	Percent of deep injection wells that are used to inject industrial, municipal, or hazardous waste (Class I) that lose mechanical integrity and are returned to compliance within 180 days thereby reducing the potential to endanger underground sources of drinking water.	90%											
2.1.1	SDW-07b	Percent of deep injection wells that are used to enhance oil recovery or that are used for the disposal or storage of other oil production related activities (Class II) that lose mechanical integrity and are returned to compliance within 180 days thereby reducing the potential to endanger underground sources of drinking water.	90%											
2.1.1	SDW-07c	Percent of deep injection wells that are used for salt solution mining (Class III) that lose mechanical integrity and are returned to compliance within 180 days thereby reducing the potential to endanger underground sources of drinking water.	90%											
Sub-objective 2.1.3: Water safe for swimming														
Grant Program: Beaches Protection														
2.1.3	SP-9	Percent of days of the beach season that coastal and Great Lakes beaches monitored by state beach safety programs are open and safe for swimming.	93%											
2.1.3	SS-2	Percent of all Tier I (significant) public beaches that are monitored and managed under the BEACH Act program.	100%											

Objective 2.2: Protect water quality													
Sub-objective 2.2.1: Improve water quality on a watershed basis													
Grant Program: Water Pollution Control (Section 106)													
2.2.1	SP-10	Number of waterbodies identified in 2002 as not attaining water quality standards where standards are now fully attained. (cumulative)	1,660										
2.2.1	WQ-01a	Number of States and Territories that have adopted EPA approved nutrient criteria into their water quality standards. (cumulative)	12										
2.2.1	WQ-01b	Number of States and Territories that are on schedule with a mutually agreed-upon plan to adopt nutrient criteria into their water quality standards. (annual)	35										
2.2.1	WQ-03a	Number, and national percent, of States and Territories that within the preceding three year period, submitted new or revised water quality criteria acceptable to EPA that reflect new scientific information from EPA or other resources not considered in the previous standards.	68%										
2.2.1	WQ-05	Number of States and Territories that have adopted and are implementing their monitoring strategies in keeping with established schedules.	56										
2.2.1	WQ-08b	Number, and national percent, of approved TMDLs, that are established by States and approved by EPA [State TMDLs] on a schedule consistent with national policy.	3,201 (84%)										
2.2.1	WQ-12a	Percent of facilities covered by NPDES permits that are considered current.	90% (93,314)										
2.2.1	WQ-13a	Number, and national percent, of facilities covered under either an individual or general MS-4 permit.	Indicator										
2.2.1	WQ-13b	Number, and national percent, of facilities covered under either an individual or general industrial storm water permit.	Indicator										
2.2.1	WQ-13c	Number of facilities covered under either an individual or general construction storm water site permit.	Indicator										
2.2.1	WQ-13d	Number of facilities covered under either an individual or general CAFO permit.	Indicator										

2.2.1	WQ-14a	Number, and national percent, of Significant Industrial Users (SIUs) in POTWs with Pretreatment Programs that have control mechanisms in place that implement applicable pretreatment requirements.	21,974 (98%)											
2.2.1	WQ-15a	Percent of major dischargers in Significant Noncompliance (SNC) at any time during the fiscal year.	≤22.5%											
2.2.1	WQ-19a	CURRENT: Number, and national percent, of high priority state NPDES permits that are issued as scheduled. PROPOSED REVISION: Number, and national percent, of high priority state NPDES permits that are issued in the fiscal year.	95% TBD for Proposed Revised Measure											
2.2.1	WQ-20	Number of facilities that have traded at least once plus all facilities covered by an overlay permit that incorporates trading provisions with an enforceable cap.	Indicator											
2.1.3	SS-1	Number and national percent, using a constant denominator, of Combined Sewer Overflow (CSO) permits with a schedule incorporated into an appropriate enforceable mechanism, including a permit or enforcement order, with specific dates and milestones, including a completion date consistent with Agency guidance, which requires: 1) Implementation of a Long Term Control Plan (LTCP) which will result in compliance with the technology and water quality-based requirements of the Clean Water Act; or 2) implementation of any other acceptable CSO control measures consistent with the 1994 CSO Control Policy; or 3) completion of separation after the baseline date. (cumulative)	640 (75%)											
Grant Program: Non-Point Source (Section 319)														
2.2.1	WQ-10	Number of waterbodies identified by States (in 2000 or subsequent years) as being primarily nonpoint source (NPS)-impaired that are partially or fully restored. (cumulative)	131
